| Operating Humidity | 20% ~ 75% RH |
| Storage Temperature | -40 ~ + 45 C |
| Storage Humidity | 20% ~ 93% RH |

The Workstations will increase the endurance of the scrubbers and are currently available for both the Scrubber 50 and Scrubber 75 series. They return automatically to the Workstation for charging, filling and discharging: ready for the next scheduled cleaning task. This minimizes manual intervention, and allows the redeployment of human resources to other tasks.
